### PROGRAM TO SUPPORT

- Capital Campaign - \$1,350** will buy 10 square feet of our building. We have raised 70% of the purchase price but still need \$250,000. Full ownership will free up enough money to hire additional staff and add programs for the students.
- Scholarship Fund - \$1000** will fund a scholarship for a student from a low income family to make the transition to college. Boulder Prep prepares students for college, but often the financial barrier prevents students from enrolling. A contribution here will help a student realize his or her dream of a better future.
- Afterschool Activity Program - \$500** will provide fifteen students with safe sober afterschool activities where they can develop positive relationships with peers and teachers. This program has increased student academic performance and reduced substance abuse. Activities include plays, bowling and nature hikes.
- Arts Program - \$250** will provide materials for one 8 week art class with 15 students. Students have the opportunity to express their creativity through art history, painting, drawing, dance, photography or video and music production.
- Breakfast Program - \$200** will provide fruit and bakery items for 100 students every morning for one month. This ensures that students have adequate nourishment for the day.
- Glasses for Students - \$150** will pay for a complete eye exam and glasses for a student. Each year, 5-10 students struggle in classes because their families do not have insurance or money for glasses.
